

## **Body Treatment**

- You wash your hands a lot right? How do you take care of the dryness? Let me give you something amazing for the dryness to keep in mind, for the next time.
- I will give you now a mini spa treatment for free!
- Really? You have ECZEMA? O.M.G! I'm excited because we have here one of the best natural treatment in the word for that! Come, I will give you a sample for free.

### **Salt Scrub**

Please, put your hands above the bowl. Rub your hands together, between the fingers and on the back... great! This is **the famous Salt from the Dead Sea**, you've heard about the Dead Sea? The Dead Sea is the lowest and saltiest place on earth, nothing can live there: no fish, no animal, nothing. The Salt has huge concentration of minerals and that's why people from all over the world fly to the Dead Sea to heal themselves from skin diseases like Psoriasis, Eczema, Dermatitis, Body Acne, and use the Salt Scrub also for Calluses, Stretch Marks and Cellulites, Age Spots, Sun Damage and most important – to remove Dry Skin.

The Salt exfoliates 98 percent of the dead skin it opens up the pores and sucks out all the dirt and all the pollution from inside your skin, outside. When you wash your hands with soap and water it cleans only the first layer of your skin. The Salt penetrates into your skin and cleans it from the inside.

When was the last time you washed your hands?! Look what comes out from your hands. O.M.G!! I'm joking, it happens to everyone! This is all the dead dry skin and the dirt from inside your hands. Imagine what's going to come out from the rest of your body, especially from your elbows, knees and the most important – from the heels. The salt is one of the best treatments in the world for dry heels.

## Body Butter

The Salt Scrub opens the pores, if they stay open we didn't do nothing. To close them we use this amazing Body Butter. It's a very rich and thick body moisturizer which is based on SHEA BUTTER, combination of NOURISHING OILS and MINERALS from the Dead Sea. Every time you use lotion on your dead skin you're wasting your time and you're money. you need to exfoliate first and then use a good lotion.

Now tell me, when was the last time you felt your hands like this? Amazing right?! Imagine this feeling all over your body.

This is the Salt Scrub and this is the Body Butter. Very important to mention that both of them are PARABEN free and SLS/SLES free. We have two different fragrances for each. Tell me which one you like the most. Use the Salt Scrub only once a week in the shower, from the neck down, especially for your heels, knees and elbows. One tea spoon is enough for all over your body! The Body Butter completes the treatment, you apply it after the Salt. They go together. It's a one year amazing spa treatment for your skin. We promote the Salt Scrub for XXX and the Body Butter for XXX which is an amazing price if you think about it, it's exactly like the price of one spa treatment for a couple, but here you are getting a set for year of spa treatments. You have a great deal as well - if you buy two sets you get the third one completely for free!!!

מרגע זה לא נחים לרגע – עוברים מידית למשפטי סגירה!
