

Extensor Deep-Lifting Mask

- Because you all ready took the basic, I will give you now the sample of the weekly treatment, for the next time, of course...
- There are many products here that you don't need, but there is something specific that I want you to come back for, I will show it to you now!

This is the amazing Extensor Deep-Lifting Mask.

I will spread a thin layer on the back of your hand and leave it on for few moments until it becomes dry.

This is a product that every lady above 30 years old should have on her shelf! Ask me why?! (Why?) Good question! ☺ Because it contains 3 masks in one product and it's exactly the answer for all your skin needs.

The first mask is a deep moisturizing mask, based on OLIVE OIL, AVOCADO OIL and JOJOBA SEED OIL. It enriches your skin with moisture and helps to return the natural moisture of your skin.

The second mask is a deep nourishing mask. It nourishes your skin with great ingredients like VITAMIN E, NATURAL HONEY and MINERALS FROM THE DEAD SEA. It purifies and improves your skin's texture.

The last and very important mask is a firming mask – a unique combination of the RENOVAGE patent and natural ELASTIN. Have you ever heard about the RENOVAGE? (RENOVAGE is an active ingredient that is known to work through human D.N.A to prolong skin cells lifespan and grow new skin molecules). Do you know what ELASTIN is? ELASTIN is a protein that keeps the skin flexible. We all have it in our skin. Unfortunately, as we get older, we start to lose the ELASTIN and we can see it by the appearance of wrinkles and sagginess. This combination fights the aging from inside your skin and improves the elasticity.

Compare both of your hands and take a look at the difference. You can feel how the area has become much smoother and the lines much finer. This is only the first treatment and with every use it will just be getting better! Imagine how it's going to look on your face!

This is the Extensor Deep-Lifting Mask. Like all of our products, it is also PARABEN free and SLS/SLES free.

It's enough to use it once a week. Spread a thin layer all over your face, avoid the eye area. Gently message it with your fingertips and leave it on for 5 to 10 minutes (or until it becomes dry). Then rinse it off with warm water. This three – in - one product is a year supply treatment and costs only XXX. Now we have a special promotion – if you buy two, you get the third one completely for free!!!
