

## **Juveness De-Wrinkle Cream**

- Because you already took the basic, I will give you now the sample of my favorite product, for the next time, of course...
- There are many products here that you don't need, but there is something specific that I want you to come back for, I will show it to you quickly!
- If I will tell you that in two seconds I can remove this small line from your face, you will believe me? ☺ Come after me... You are going to love it!

This is my favorite product and one of our best sellers – the **Juveness De-Wrinkle Cream!** I have a feeling that it's hard to impress you, but I think that now I'm gonna make it big time! This amazing cream creates 2 effects.

The first effect is a long-term effect, based on the RENOVAGE patent. Have you heard about RENOVAGE? (RENOVAGE is an active ingredient that is known to work through human D.N.A to prolong skin cells lifespan and grow new skin molecules). It means that with every use you improve your skin's texture and give your skin a younger look.

Now the long-term effect is great and important but between us, not because of that we are here... (אפשר לומר זאת בלחישה) take a look at the second effect! This amazing, unbelievable effect gives you short-term immediate effect. It is based on natural POLYMERS that cover the wrinkle and reduce between **60% to 90%** of the wrinkle. It's hard to believe right? Let me show you...

I will spread a thin layer on your face and then massage it a little bit. Are you ready for that? Take a look at the difference! Isn't that amazing? In less than two seconds there is a dramatic change on the face!

The result that you see will stay 6 to 10 hours, so it's perfect to use it for special event like wedding, party, dinner, birthday, important meeting...

Whenever you want to have the best look - use it before, two seconds and you are ready! Now try it by yourself, choose a line on your face that you want to remove and go for it. So easy... amazing right?!

It comes like this... this is the Juveness De-Wrinkle Cream. Like all of our products, it is also PARABEN free and SLS/SLES free. Use it whenever you want on fine lines, deep lines, around the eye area, forehead, around the lips area and wherever else you desire!

This magic jar costs XXX, in my opinion it's an excellent price for what it gives. Now it's even better because it's on special promotion only for XXX and there is a great deal as well – if you buy two, you get the third one completely for free!
